WIRE DRAWING LUBRICANTS - WIRE CUTTERS - PULLING-IN-DOGS - METALLURGICAL MICROSCOPE FOR DIE TESTING

Bharat Industries has been engaged in producing Polishing-pins right from the very beginning, giving us an experience of over 40 years in Polishing-pin manufacturing. We manufacture various types of Polishing-pins including Wood & Steel Polishing-Pins and Steel Lapping-Pins for your usage in Die-Polishing. These Pins are recognized as being useful for providing fine polish without altering their shape during polishing procedures.

Wood & Steel Polishing Pins:

Wood & Steel Polishing pins are made in both blank as well as in ground form from material desired by the customer, wood or steel. The steel polishing pins are especially hardened for prolonging their service-span. The blanks pins are roughly grounded to perfection of $\pm 1^\circ$, whereas grounded pins are accurately grounded to finest degree desired.

Specifications:

Sizes Available	Angle Available
6, 9 & 12 mm(Standard) Bigger Size on Request	10 ⁰ to 22 ⁰

MANUFACTURER'S & SUPPLIER'S OF QUALITY PRODUCTS:

Steel Lapping Pin:

Steel Lapping Pins are also available in both blank as well as in grounded form as per your requirement. These pins are made from silver-rod and possess a lapping pin. These are an economical and accurate method for sizing and polishing of drawing dies. These pins can be made as per your requirement in sizes ranging from 0.5 to 20mm.
